REPORT

on

SPRINKLERS, AUTOMATIC AND OPEN

Viking Corp.
Hastings, MI

Copyright © 1998 Underwriters Laboratories Inc.

Underwriters Laboratories Inc. authorizes the above named company to reproduce this Report provided it is reproduced in its entirety.

DESCRIPTION

PRODUCT COVERED:

*USL, CNL Model HQR-2 flush pendent, flush pendent extended coverage light hazard and flush horizontal sidewall sprinklers with tamper resistant escutcheons rated 165°F and Model H-4 flush horizontal sidewall sprinklers rated 165°F.

CONSTRUCTION DETAILS:

The devices have been examined and found to comply with the Standard For Automatic Sprinklers in effect as of the date of this Report.

USE:

The products covered by this Report are for use in accordance with the National Fire Protection Association Standard For The Installation of Sprinkler Systems, NFPA 13, and the manufacturer's installation instructions (see Figs. 1 through 3).

CNL indicates Listing to Canadian National Standard ULC C-199.

CONCLUSION

Samples of the products covered by this Report have been found to comply with the requirements covering the class and the products are judged to be eligible for Listing and Follow-Up Service. The manufacturer is authorized to use the Laboratories' Mark on such products which comply with the Follow-Up Service Procedure and any other applicable requirements of Underwriters Laboratories Inc. Only those products which properly bear the Laboratories' Mark are considered as Listed by Underwriters Laboratories Inc.
