

Fig. 200H - Heavy Duty Band Hanger (for Trapeze)

Size Range — 1/2" thru 4" trapeze pipe size.

Used to support up to 8" pipe.

Material — Carbon Steel — Pre-Galvanized to G40 Spec

Function — Designed primarily to support substantially heavier loads than is normally intended for the nominal hanger size. Used extensively to support trapeze installations and the increased loads from **both** above and below the trapeze assembly.

Features — Furnished with 3/8" or 1/2" adjusting threaded ring nut.

Approvals — Underwriters' Laboratories listed in the USA (**UL**) and Canada (**cUL**). Conforms to Federal Specification WW-H-171E, Type 10 and Manufacturers Standardization Society SP-69, Type 10.

Maximum Temperature — 650°F

Finish — Pre-Galvanized

Order By — Figure number, pipe size and rod size.

Important Design Note — Because of the increased loads applied to the trapeze assembly, **both** the upper trapeze supports as well as the lower hanging unit must be able to hold the maximum loads intended.
