

Safety meets sustainability with Oxeo

Oxeo Extinguishing System offers an environmentally responsible solution while protecting the most damage-sensitive applications

VIKING[®]

Benefits of Oxeo

Sustainable Solution

Oxeo only uses inert gases nitrogen and argon to suppress fires

No Secondary Damage

Oxeo leaves no residue and results in no secondary damage to sensitive items

Tank Capacity

Up to 99 tanks can be actuated pneumatically, and tank capacity is 30, 80 and 140L

Listed and Approved

Oxeo is cULus Listed and FM Approved to work in Class A, B and C fire scenarios

Oxeo protects sensitive applications such as:

- Data Centers
- Galleries & Museums
- Evidence & Pharmaceutical Storage
- Turbines
- Document Archives
