This Trim Chart is for use with the following Viking Trim Sets				
Valve Size	Galvanized Trim Part No.	Brass Trim Part No.	Stainless Steel Part No.	
4" (DN100)	26521-1	26521-2	26521-3	

This trim is for use with the following Release Module Trim Kits

Release Type	Galvanized	Brass	Stainless Steel
Electric	10830	10832	10831

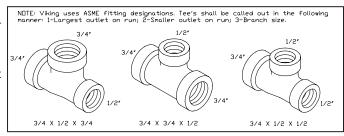

Note: Nipple lengths for brass trim may vary from those shown on this Trim Chart.

Notes: For use with Trim Charts on Pages 2 and 3

General Notes:

- Valve must be trimmed as shown. Any deviation from trim size or arrangement may affect the proper operation of the valve.
- · Dimensions in parenthesis are millimeters.
- Viking uses ANSI tee designations (large outlet on run, small outlet on run, side outlet) in all trim call-outs.

- Note 1: Release System connection.
- Note 2: Alarm Connections: Connect alarm line piping to 3/4" (20 mm) NPT outlet. When using a Water Motor Alarm, a strainer is required. 1/2" (15 mm) NPT outlet is for electric Alarm Pressure Switch.
- **Note 3:** Optional non-interruptible connection for Alarm Pressure Switch to activate electric alarm panel. Note: After the flow control valve trips, this location cannot be shut off. Alarms may operate until the outlet chamber of the flow control valve is de-pressurized below the set point of the Alarm Pressure Switch.
- **Note 4:** Viking Drain Check Valve is manufactured with a 0.067" (1.7 mm) orifice to allow alarm line to drain. Do not substitute. Check label for proper orientation.
