

Viking Fabrication Services

Industry Leading Quality

One contact gets the job done.

From our processes, our practices and to our quality control, we take steps to ensure that our leading products exceed industry standards.

Fabrication Focus

Our standardized Welder Training Program, welder tools, facility equipment and much more are consistently updated and maintained.

Network Expansion

Viking has recently added a new fabrication location in Kent, WA and consistently upgrades its state-of-the-art welding tools and technology to meet customer demand.

Order Delivery

Viking brings your order directly to the job site, and our trucks come equipped with GPS tracking by specific order.

The best solution is a complete solution. That's why Viking combines full-service fabrication services with the industry's most comprehensive range of fire protection products.

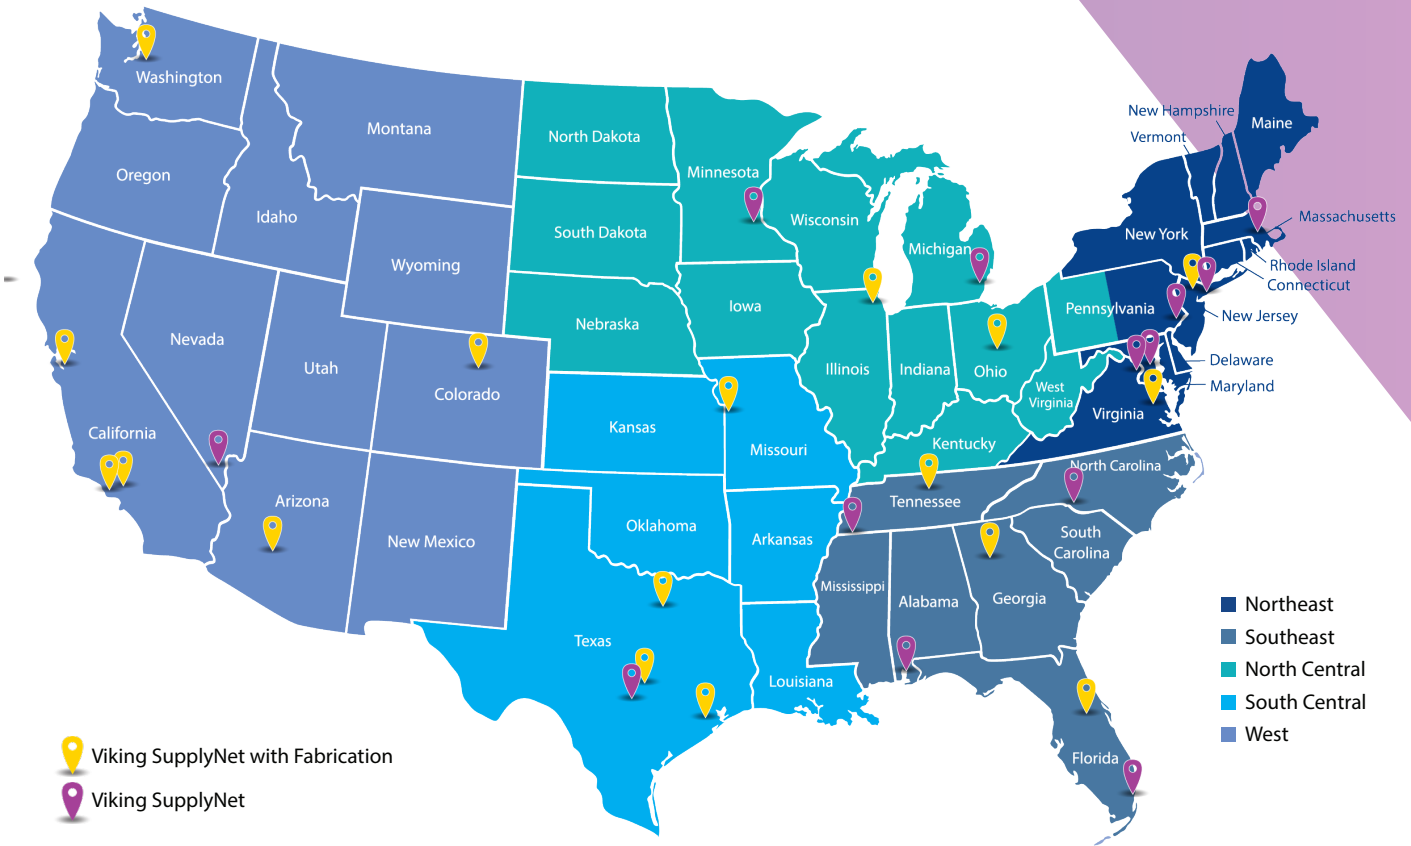

We sweat the details so you don't have to! Our delivery trucks are equipped with integrated forklifts for easy unloading at even the most difficult job sites, and fabricated pipe is clearly and systematically bundled for easy identification and installation.

Our wide range of capabilities includes:

- Threading, grooving, welding end of pipe preparation and hangar assemblies
- Black or galvanized material welding
- Import or domestic sprinkler pipe
- Complete stocklisting and estimating services using HydraTech® design software
- Fifteen full-service fabrication locations throughout the United States
