

## VFR-500 Release Control Panel offers customizable control options

The Viking VFR-500 is a cULus Listed and FM Approved microprocessor-based multi-hazard releasing control panel for preaction, deluge, and water-based extinguishing systems, or for agent extinguishing systems. The VFR-500 may also be used as a stand-alone fire control panel. The panel is a lockable steel cabinet featuring a supervised microprocessor and containing highly technical and customizable control solutions.

*Features and advantages of Viking's VFR-500 Release Control Panel:*

- Seven user-definable zones and menu-driven programming controls
- Up to 35 standard programs in memory and programmable cross zoning
- Multi-directional navigation through the panel history and menus, allowing for a more intuitive and user-friendly experience
- cULus Listed and FM Approved for agent and/or water-based extinguishing
- Vast product compatibility range, including spot heat detectors, smoke detectors, and linear heat detectors
